

Fish Kill March 2011.

More than 5,300 fish (2,666 pounds in 120 bags) were picked up. Most were Shad, a few croppies and a couple of Bass. Below is the picture of the dead fish dumped at the local land fill.

Wayne Soukup spent over seventeen hours picking these up with Larry Frazee dumping the fish. It cost a little over \$80.00 to dump them. We reimbursed Wayne for his time.

This was a really stinky job but the weather did cooperate by being cool.

WE REALLY WANT TO THANK

WAYNE SOUKUP and LARRY FRAZEE

for their hard work.
